<b>Document :</b>	AEMH 10-021
<b>Title:</b>	Abstracts of the OECD publications “Health at a glance – 2009”
<b>Author :</b>	AEMH European Liaison Office
<b>Purpose :</b>	Information
<b>Distribution :</b>	AEMH Member Delegations
<b>Date :</b>	9 April 2010

Here attached a chart with abstracts of the OECD publications “Health at a glance – 2009”, providing health data per country. I have extracted the information on doctors’ remunerations, the number of practising physicians, the number of foreign-trained doctors and medical graduates.

This is just a small selection, much more on the OECD webpage [http://www.oecdilibrary.org/content/book/health\\_glance-2009-en](http://www.oecdilibrary.org/content/book/health_glance-2009-en) you can select different topics (see here below), click on the link and choose format html or pdf to download.

It is also available in French “Panorama de la Santé”
