Subject: Info: Crossborder healthcare Collaboration

Dear all,

This article may be of interest to you:

The latest issue of Eurohealth explores various topics related to the European Directive on the application of patients' rights in cross-border health care. Ten case studies look at specific aspects of EU cross-border health care collaboration, particularly at potential obstacles not fully covered by the Directive. Other articles look at dispensing prescriptions across EU Member States, European public health strategies, oral health in Europe, reporting health care waste in the Netherlands, the chronic care system in Spain, scaling-up e-health in Catalonia and dental health services for migrants in Cyprus..
