Règles de fonctionnement CPME - Official comment of the Swiss executive committee

Dear Sir/Madam

The document proposed is more than desirable in that procedures have been very complicated in the past: Documents sent to the CP had to be discussed in the plenary session directly with the comments of the associated organisations. A very consuming procedure. Eventually documents were given into one or several subcommittees for consideration, which delayed the whole affair for yet another 12 to 24 months.

It is wise to give the documents into the organisations first in order to shorten the debate in CP's very expensive debates.

With kind regards
