Date :	9 March 2010

Commission launches a Stakeholder consultation on health security in the European Union

Target group(s)

National, regional and local authorities, health institutions, NGO's, interest groups, enterprises and individual stakeholders are welcome to provide comments to this consultation.

Period of consultation:

From 04.03.2011 to 29.04.2011

Objective of the consultation

The aim of this consultation is to seek the views of stakeholders on what action the European Commission should take to protect EU citizens more effectively against serious cross-border health threats. The Council of the European Union invited Member States in 2010 to further improve their coordination and collaboration in facing serious cross-border health threats, including a coherent approach to preparedness and response to pandemic influenza and to other public health emergencies of international concern. This implies reinforced preparedness, ensuring coherent risk assessment and risk management as well as improving the coordination of public communication on any matter related to health-related crisis involving or likely to threaten more than one Member State.

How to submit your contribution

Respondents should submit their contribution by accessing the [online questionnaire](#). A report on received contributions will be published on the Internet. It is important to read the [specific privacy statement](#)  [33 KB] attached to this consultation for information on how personal data and contribution will be dealt with.

View the consultation document

You are advised to read the [introductory paper](#)  [24 KB] before completing your contribution.

View the questionnaire

The maximum time to complete the questionnaire allowed by the system is limited to 90 minutes. Partial responses will not be saved. This means once you start filling in the questionnaire, you have to answer all compulsory questions to submit your reply. If you exceed the time allowed, your reply will be lost. You can, however, preview/print a [PDF version of the online questionnaire](#)  [89 KB] to help you to prepare your response.
