Date :	30 May 2018

Belgium report 2018

Traditional negotiations to enter into a tariff agreement for 2018 and 2019.

An agreement has been concluded for two years.

The budget for medical fees was set at €8.3 billion which implies savings for €29.5 million

Doctors over 62 years old have been exempted from the requirement of e-prescription.

Various adjustments of nomenclature, modification of rules of operation, methods of reimbursement of medical acts, etc....

A **new law on hospitals** should come into effect in 2020.

It will probably turn upside down the current functioning of hospitals as well for doctors as for patients!

The main axes are:

1. 25 Hospital networks for the whole country.
2. Continuous areas that do not overlap.
3. Freedom of association of hospitals to a network.
4. Each hospital **MUST** be part of a network and **ONLY ONE**..
5. At least 2 hospitals to create a network.
6. No obligation for psychiatric hospitals.
7. A university hospital has an **OBLIGATION** to belong to a network and **ONLY ONE**.
8. Large cities can have several networks in the same geographical area.
9. The network must have a legal personality

The role of physicians in the management of these networks is still in focus!

But!from now to 2020,..... there are still two rounds of elections!!!!
